Disclaimer

We have made every effort to make the colours on screen as close to actual paint colours as computer screen resolutions as allow. Please refer to paint chop samples for an accurate match. Colours will vary depending on your screen settings and resolution. Applied sample is recommended when colour matching is critical.

Jotashield with AntiFade Colours

Say goodbye to dull colours

Jotashield with **AntiFade Colours** effectively fights against fading and dull colours. Thanks to Jotun Pigment technology and the careful selection of pigments and colourants, **Jotashield** with **AntiFade Colours** is two times UV Protected and lasts longer than standard exterior paints. It is also Dirt Resistant, and offers outstanding durability.

Within the pages of this brochure, you'll find more than just beautiful colours. We have included a colour scheme so you can easily mix and match colours, and visualise different combinations and styles. You'll find the widest selection of colours for exterior paints to inspire a beautiful transformation of your home. Because with **Jotashield AntiFade Colours**, your home is never dull but stays vibrant and beautiful for longer.

Get into the rhythm of earthy tones and choose from strong, bold colours to pleasantly subtle shades.

Setting the standard with proven performance.

2X UV Protected Colours

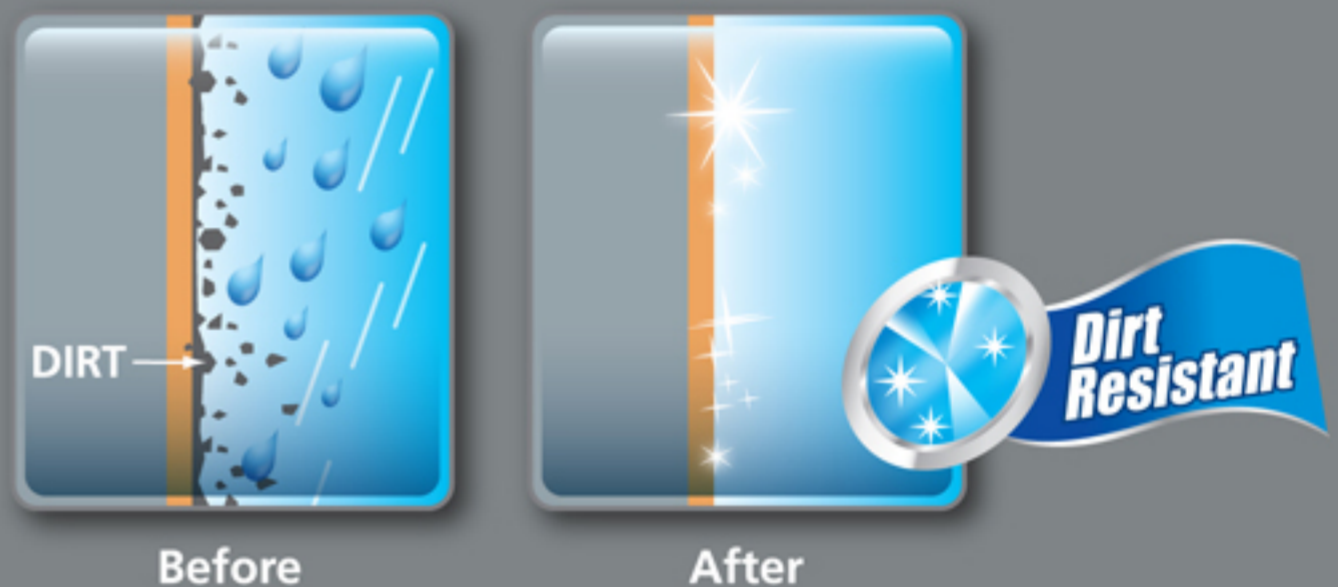

Jotashield's AntiFade Colours is capable of 2X UV protection, thanks to Jotun Pigment technology and the selection of high-grade colourants. Accelerated and natural weathering tests through third party certification prove that Jotashield colours last twice as long as competitors.

Source: Independent test conducted by Setsco Services Pte. Ltd., Singapore.

Dirt Resistant

The AntiFade Colours are also dust and dirt resistance, so your home's exterior always looks clean and beautiful. The binder technology is proven to reduce the pick-up of dirt from the environment. Dirt is easily washed away, so walls remain cleaner than most exterior paints by competitors. This is tested in Singapore to comply with SS500 standard dirt pick-up requirement.

Source: Independent test conducted by TÜV SÜV PSB Pte. Ltd., Singapore.

Reduces Temperature

Strong or dark colours for exterior walls won't be a concern anymore. Using the latest infra-red pigment technology which reflects sunlight, Jotashield colours are able to reduce the temperature of the home's exterior, which makes the interior cooler. This is proven by external test reports that show the savings in electricity consumption.

Source: Independent test conducted by Building System and Diagnostics Pte. Ltd., Singapore.

MULTICOLOR
Tintable

Comprehensive protection,
trusted the world over.

Jotashield Extreme is the most durable paint for harsh tropical climates. It utilizes a 100% extreme acrylic formula with 2X Heat Reflective and 2X UV Protected Colours features. What's more, every can comes with an 8-year performance.

Jotashield with AntiFade Colours effectively fights against fading and dull colours. Thanks to Jotun Pigment technology and the careful selection of pigments and colourants, Jotashield with AntiFade Colours is two times UV Protected and lasts longer than standard exterior paints. It is also Dirt Resistant, and offers outstanding durability.

Jotashield Flex offers the most effective protection against unsightly cracks. It is designed to elongate up to 320% to bridge existing and future forming cracks. What's more, it has also passed the SS500 certification for elastomeric paints.

Jotashield Primer is a premium water-based acrylic primer that serves as a foundation for the Jotashield paint system to deliver high performance. It can be used on new and previously painted exterior concrete, masonry, plaster and brickwork. Jotashield Primer seals off the substrate to resist alkaline and moisture attack, while improving the adhesion between the substrate and the topcoat.

JOTASHIELD PAINT SYSTEMS

			
Recommended Paint System	Jotashield	Jotashield Extreme	Jotashield Flex
- Fresh Concrete	1 X Cito Primer 09 2 X Jotashield	1 X Cito Primer 09 2 X Jotashield Extreme	1 X Cito Primer 09 2 X Jotashield Flex
- Existing, sound surfaces	1 X Jotashield Primer 2 X Jotashield	1 X Jotashield Primer 2 X Jotashield Extreme	1 X Jotashield Primer 2 X Jotashield Flex
Typical Theoretical Spreading Rate (Sq Metre/Litre)	10 - 13	10 - 13	5 - 7 (min 150 microns thickness)
Drying Time	Min 2 hours	Min 2 hours	Min 2 hours
Recoating Time	2 - 3 hours	2 - 3 hours	4 hours
Surface Preparation	The substrate must be dry, clean & sound, free from dust, oil, grease and laitance etc. All traces of release agents must be removed. On chalky and dusty surfaces, all loose materials must be removed by stiff bristle brushing.
